Mural Pricing Sheet

My mural art is not calculated on a daily or hourly rate. As each project is unique, I price them accordingly; size, complexity and budget all come into account. The design process begins with some collaboration and brainstorming with my client to discuss their desired and possible outcomes; this ranges from the theme of the mural to what subjects, style, palette and general atmosphere is desired.

Please note: These prices are approximates. Each mural is uniquely tailored to client’s requirements, budget and complexity of the mural. Price per square foot may increase if design requested is very complex. This will be indicated in price quote and determined at the time that the final sketch is approved.

Minimum Price: Murals sized 0-64 Square Feet: Price is \$960

Per additional square foot, pricing starts at \$15 and decreases with increased size of mural; at 290sf price drops to \$13/sf – at 500sf drops to \$10/sf - at 900sf drops to \$9/sf
